

## Texas Reading Academies / Kinder – 3<sup>rd</sup>

Each teacher and principal will be required to attend a reading academy by the year 2022- 2023. Campus administrators will ensure that all teachers attend professional development opportunities and have a good understanding of reading foundational skills, instructional methods, and assessments. Reading achievement academies will be aligned by our regional service center and a training calendar will be provided to all districts in Texas. More information will be provided by TEA on the number of providers of the academies in the state. The providers may consist of vetted ESC staff, district level staff, and non-profit agencies.

The following are the two types of training implementation models that school districts will need to select from in order to provide quality staff development.

Implementation Options:

- ┆ **Blended Model:** online modules and in person training, delivered by a cohort facilitator, three cohorts of 100 participants, 60 hours of training, requires artifacts to be submitted to demonstrate competency, completed in 11 months
- ┆ **Comprehensive Model:** in person training, delivered by a cohort coach, one cohort of 60 participants at a time, requires artifacts to be submitted to demonstrate competency, completed in 11 months

The academies will focus on specific content related directly to the acquisition of foundational reading skills and the use of diagnostic reading data deriving from assessments and screeners. Educators will be able to gain insight on how to interpret results and how they can be used effectively in making data-based decisions on instruction in reading and meeting the learning needs of students. The content of the Reading Academies will be aligned with the 13 Science of Teaching Reading Competencies.

## Adopting a Systematic Phonics Curriculum K-3<sup>rd</sup> / Direct Instruction

The district may be required to adopt a separate Phonics Curriculum as mandated by the Texas Education Agency or may be allowed to utilize the current phonics program that is currently being implemented. The delivery of instruction in phonics instruction must be direct, systematic, and conducted through a scientifically research-based program. The phonics program must incorporate the foundational essential components of literacy. School districts are to select a phonics curriculum that incorporates a defined and structured scope and sequence and that provides in depth instruction on foundational skills.

These foundational components of reading include the following:

- ┆ Phonemic Awareness
- ┆ Phonics
- ┆ Fluency
- ┆ Vocabulary
- ┆ Reading Comprehension

## Goal 1: Third Grade Reading

The percent of 3 <sup>rd</sup> grade student that score at <u>meets</u> grade level or above on STAAR will increase from 42% to 47% by June of 2024.

## Mathematics Plan and Goals

Like the literacy plan, the Mathematics Plan will demand a continual review of our foundational instructional programs in Pre-K through 3<sup>rd</sup> grade and the instructional approaches that are currently in use in our classrooms. A critical part of the plan will involve the analysis of student performance data, monitoring of progress, and the provision of timely interventions and support systems at schools to prevent failure in mathematics. The integration of effective mathematics diagnostic instruments will be utilized in order to rely on the most valid and reliable sources of data in making instructional decisions for students. Special emphasis will be placed in the evaluation of current instructional practices and programs that address the essential building blocks of mathematics instruction.

### Goal 2: Third Grade Mathematics

## **College, Career, and Military Readiness (CCMR) Plan and Goals**

Whether the students decide to pursue a future in academia-Post Secondary, the workforce, or the military, the Eagle Pass Independent School District will be there every step of the way to assist the students. The District will implement its College, Career, and Military Readiness plan and objectives to its greatest extent.

The Eagle Pass Independent School district will monitor each high school student's progress in regards to CCMR. Student college readiness will be monitored using ACT, SAT, A/P, and IB assessment data. Some students will opt for a career option. To that end, the high school campuses will assist the students as they take Career and Technical Education course pathways. The goal for CTE students is to obtain an Industry-Based Certification (IBC). For those students who opt to enlist in our armed forces, the district will provide opportunities for them to take the ASVAB.

The combined efforts of campus administration, counseling personnel, teachers, students, and the overall education community will ensure the success of the CCMR programs.

### Goal 3: College, Career, and Military Readiness

The percent of graduates who meet the CCMR criteria will increase from 50% to 56% by June of 2024.
